★ BioPharma Scientific NanoEPA-DHATM Fish Oil with Vitamin D & E Complex, Lemon Creme

- Omega-3 fatty acids play a critical role in the overall function of the body. Most people do not get enough in their diet and that is why we have you covered. The best part, nanoEPA Lemon Cream is packed with benefits for optimal health, without the fishy burps and aftertaste. Even better, it tastes like a dessert. This product is very kid friendly.
- When you taste our nanoEPA emulsified fish oil in lemon cream flavor, you will find it hard to believe that it is a fish oil supplement. Since nanoEPA is emulsified, you absorb up to 300% more than regular fish oil pills. Two teaspoons of nanoEPA is equivalent to 3 large fish oil capsules.
- And like all of our other products, we take it a few steps further and add additional supplements to give you optimal health benefits. We've added vitamin D, a vitamin E complex and tocotrienols to give nanoEPA a power-packed health supplement. We also enhance the absorption for better results.

★ Fish Oil Pills - Pharmaceutical Quality - Triple Strength Omega 3

This is THREE TIMES the amount of regular fish oil.
- ULTRA PURE - purified by the best purification method - Molecular Distillation. Guaranteed free all harmful toxins. Note: Industry standards allow 100ppb of Mercury.
